

Smol2Swol

ANNUAL MEWSLETTER

Wishing you a Happy Swolstice!

S2S is a rigorous, science-based program that aims to save fuzzy lives and enrich human lives. We foster abandoned cats, teach them to be gentle companions, and then send them to out into the world to bring love and joy to their adopters. Our instructors/cat doulas specialize in supporting pregnant cats, and raising the kittens to know a world that has only shown them kindness.

The Smol2Swol intensive kitten training purrogram reached new heights in 2020! We hosted two full classes and two remeowdial classes, in total graducating fifteen kittens and two momcats. This year, our classes set course records for adoption rates, weight gain, and fighting spirit. 2020 was a difficult year for many and our graducats exemplify the purrserverance of our country.

S2S hisstorians have kept extensive records of the development and training progress of each class, available here: <https://photos.app.goo.gl/kb8QBNcKYao9Dk2K6> . We hope that these records bring you joy in the dark days of winter.

Our course instructors wish you Happy Swolidays and a healthy New Year!

Thank you for being part of the S2S community!
Community engagement lets us place our graducats in loving forever homes.

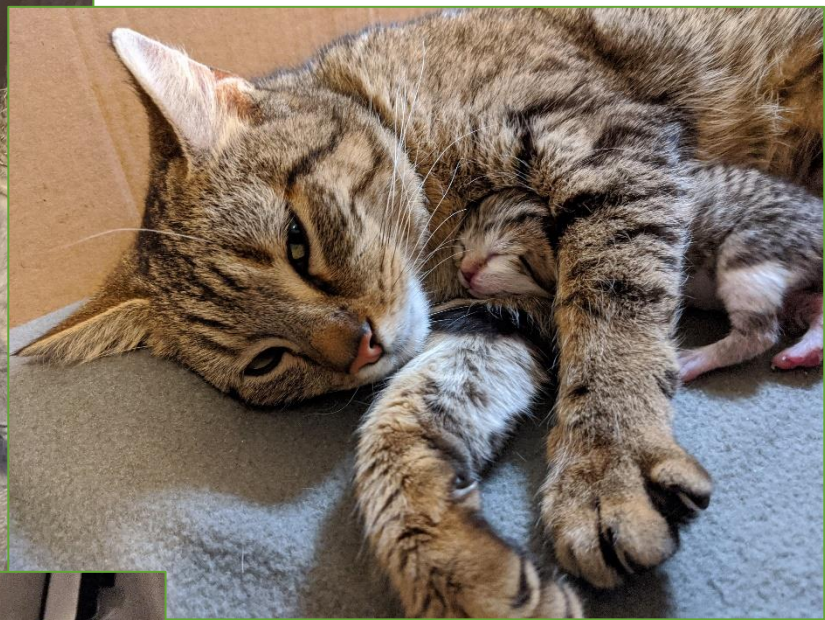

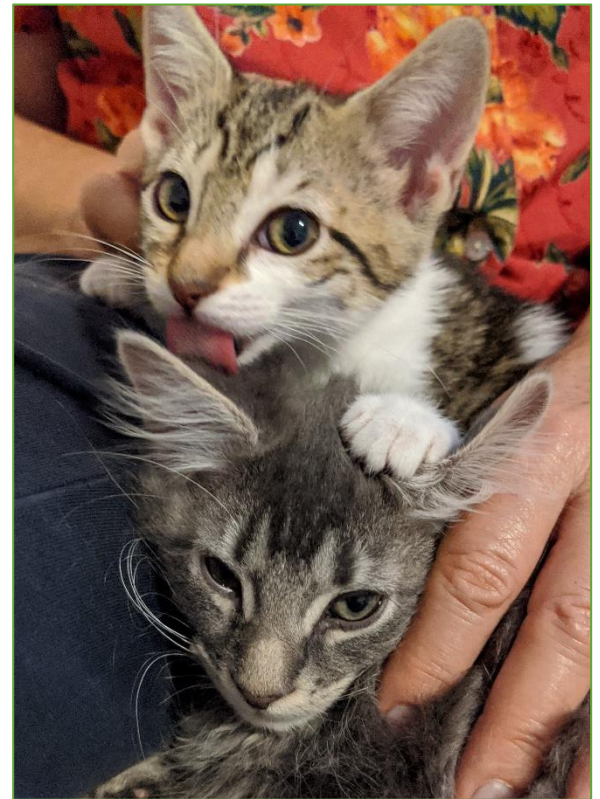

WITH SPECIAL THANKS TO

Danielle and Illix,
rescuers of Kahlua
(néé Catermelon)

Emma, rescuer of the
Purresidents-elect

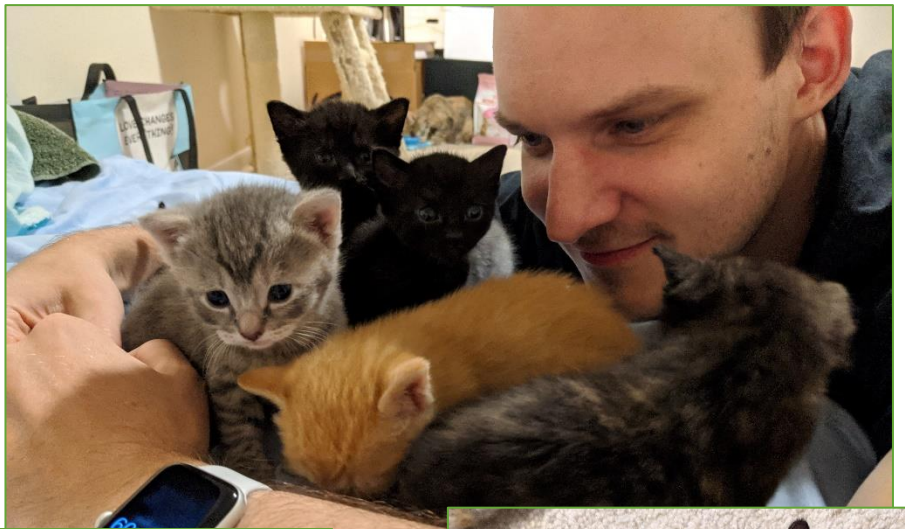

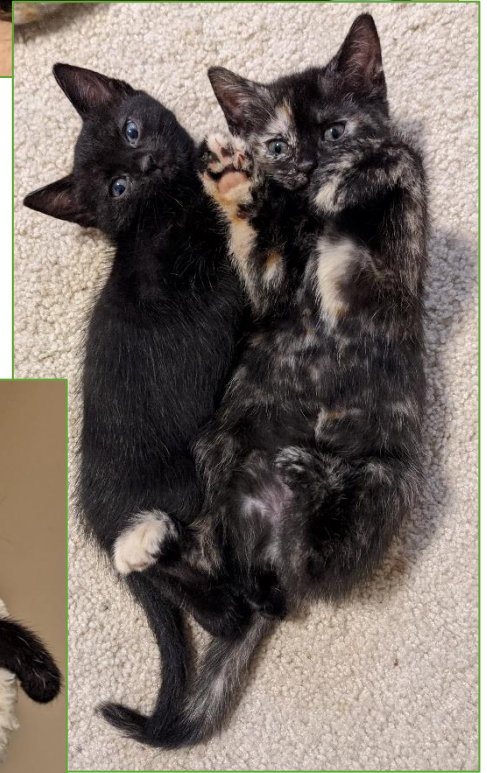

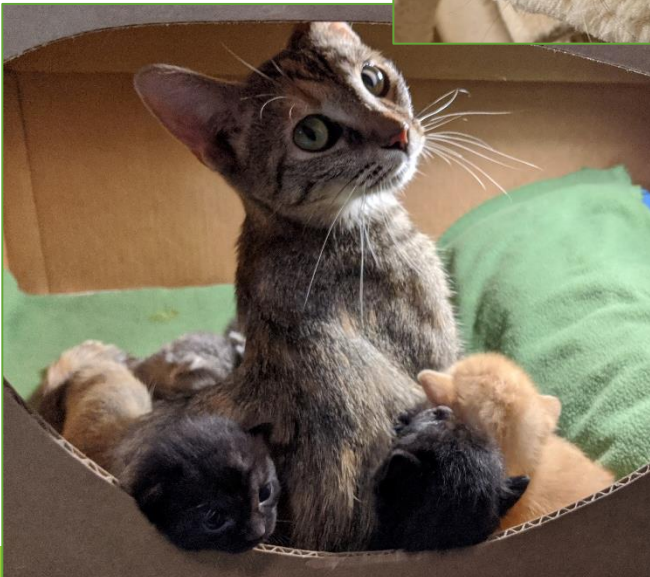

Lead Instructor Nancy,
developer of the advanced
snuggle skills purriculum

The Small Miracles Cat
and Dog Rescue! Their
heroic efforts enable the
S2S program to succeed.

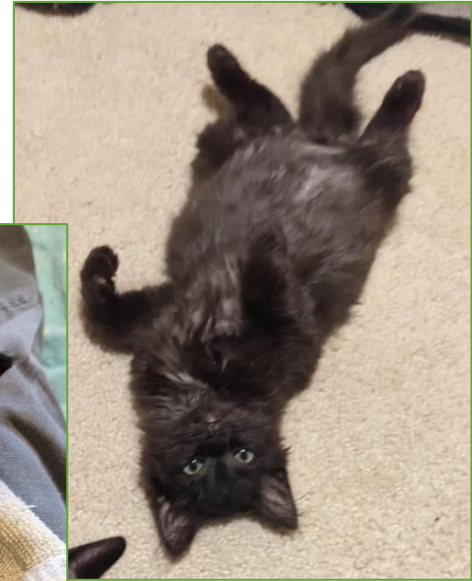

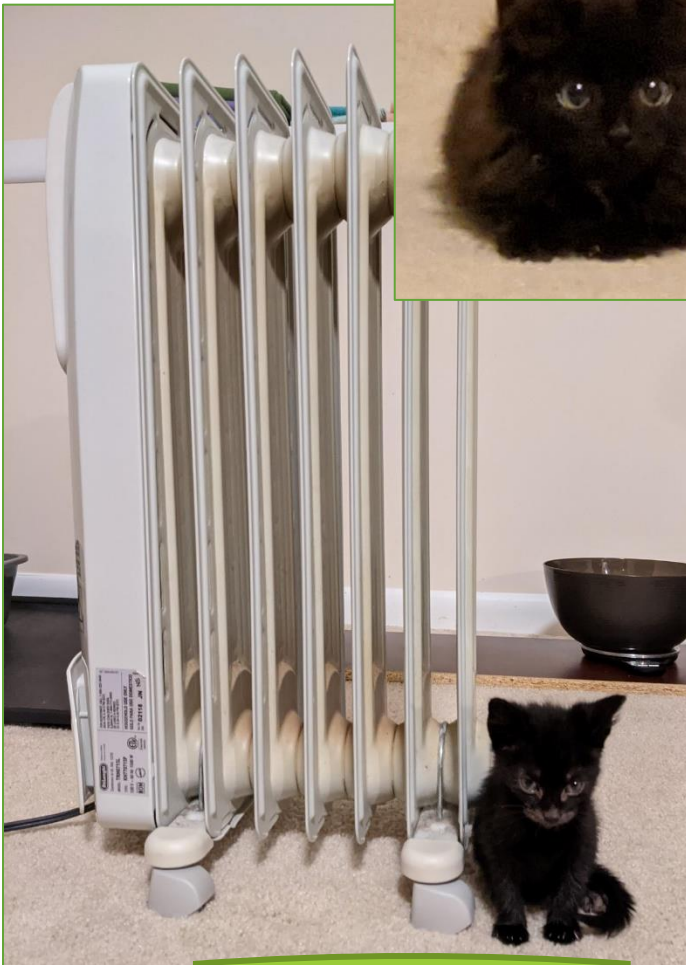

Sunny and the Planets impressed course instructors with their roundness, furriendliness, and unpurralled cuteness.

Kahlua was plucked off the streets as a ravenous, beachball-shaped young mother-to-be. She diligently shepherded our largest class yet, the six Coffees, to great plumpness and affection. All seven have brought a much needed doses of caffelination to their furrever homes.

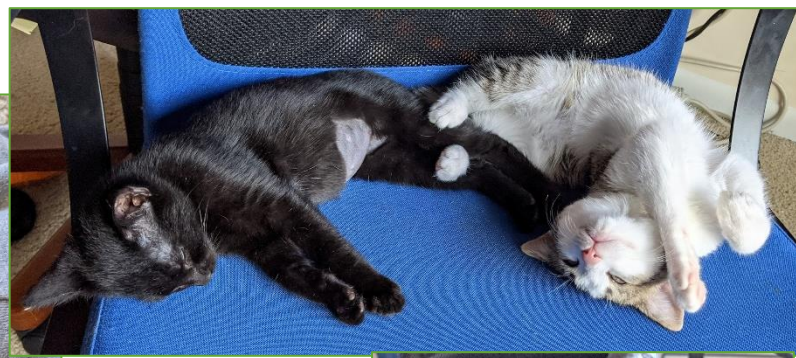

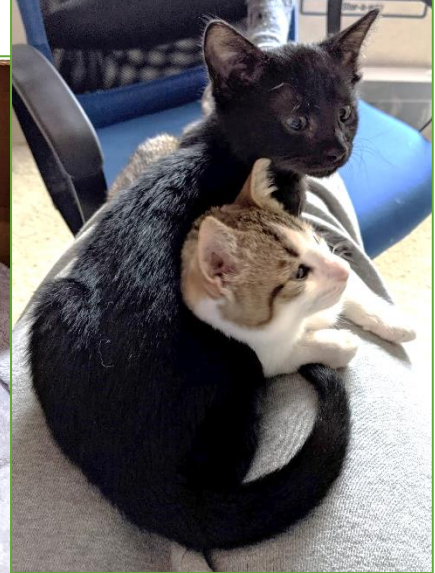

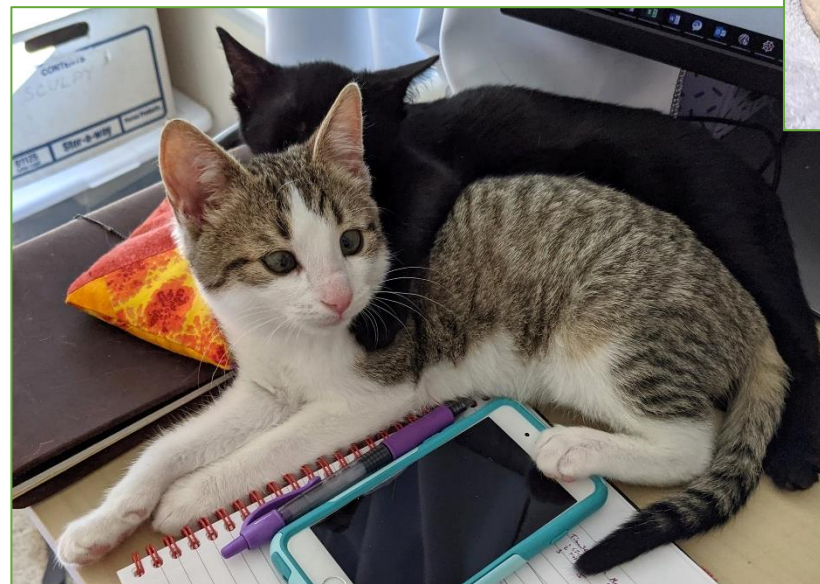

The three Campfires, our first class to arrive without a Class Leader, worked hard to overcome their humble beginnings. Their pawstivity, fluffiness, and grit in the face of adversity set an example for their successors and humans alike.

COURSE RECORD!
Greatest One-day Weight
Gain of 154g, by Smudge

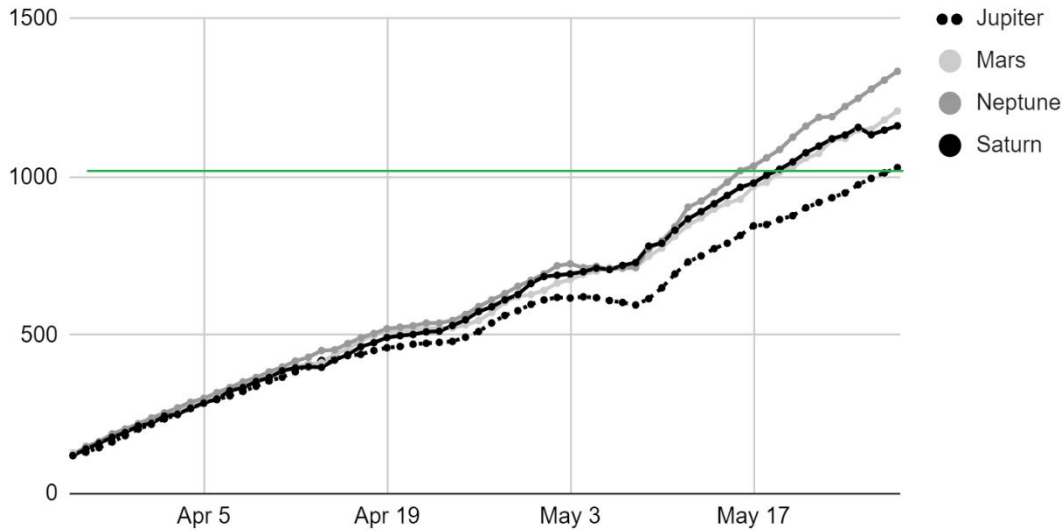

The Chief Exe-cute-ives were our first students to undertake – and pass with flying colors – our focused swolcialization training course. These Purresidents-elect established their new admeownistration with courage, grace, and astounding gentleness.

Chonk Charts

Daily weight records are kept for all S2S students. For classes with a known birthdate, weight records can be aligned to observe trends within and across classes. The Chonk Charts for our complete 2020 classes are shown below. The horizontal green line indicates **the Swole Goal**: the weight at which a kitten can be spayed or neutered and adopted

The Swolar System

The Coffee Kittens
